

Gratitude Art launch at Bookworld España – in Puerto Banús Saturday 15th May 2010

Here is another opportunity to join us in launching Gratitude Art. After our first successful launch in the Guadalmina store, we are now launching in Puerto Banús.

Positive thinkers from all over the Costa del Sol are invited to attend the Gratitude Art Launch, at Bookworld España Puerto Banús, to help bring health, wealth and happiness into their lives.

This unique and exciting launch will take place on the Bookworld España Puerto Banús on the 15th May 2010, between 1 and 3 pm.

The first fifty people at the launch will have the chance to write their desire on a sticker and send it out to the Universe on a helium balloon. It is all about letting go and believing that the Universe will, in fact, respond. Guests will also have the chance to learn more about the Gratitude Art range of products.

Gratitude Art is the brainchild of local company director (Redline Company), and aficionado of self-development, Line Lyster, who creates a range of gifts, canvases, greetings cards and mugs which relate to the law of attraction and the power of positive thought.

The law of attraction, well documented in the best-selling 'Secret' by Rhonda Byrne, encourages readers to send positive thoughts out to the universe and to be grateful every day for what they have. In return they will attract money, health, love and all good things they have always wished for.

Gratitude Art is being launched to remind people to trust the universe and stay positive, without having to stick post-it notes all around their houses, or rely on cork-board messages to jog their memory.

“Positive thought has completely changed my life, and the lives of those around me. It is only when we learn to be grateful for what we have and give thanks to the universe that we will receive good things in return. As a graphic designer I have been able to create a range of products to reflect the power of our thoughts to help us stay focused in our everyday life”, says Line Lyster, founder of Gratitude Art and owner of Redline Company in Marbella.

Dr. Susan Phoenix, best selling author of Policing the Shadows and Out of the Shadows says: “Gratitude art has been an inspirational tool for many workshop students who wish to inject some really positive energy into their everyday lives. People attending Angels, Energies and Auras workshops in Spain and Ireland have found that by having the canvases on their walls, notebooks on their desks, magnets on their fridges or from having coffee from the mugs, reminds them that life is exactly what you make of it and that love is the highest vibrational energy in our Universe. This is a scientifically proven fact and these attractive products can reinforce our own daily resolve to stay upbeat and happy. What a great idea to tune up the earth’s energy in your personal space.”

Bookworld España Puerto Banús is located across from Corte Inglés, next to Espejos hairdressers.
